

TRAIL TARPS

Also known as Diamond Shelters, these are your best friend on the trail. No other shelter has the set up flexibility of the Trail Tarp. The only limit to the number of ways it can be pitched is your own imagination. These can double as tent flies, throw tarps, ground cloths, etc., and are an excellent lightweight shelter for packing into an event.

With correct rope placement, and the help of a few trees, the Trail Tarp can be set up in any of the configurations shown below without using any poles.

FLOW POINT

OPEN ENDED WEDGE

OPEN ENDED REFLECTOR

HALF-OPEN REFLECTOR

Panther's Trail Tarps are built for versatility, with rolled loops and triple layered reinforcements at the corners, center, and the mid-points of each side. We add a 1/2" wide, 18" double tie every 24" or so around the rest of the perimeter. All these loops and ties enable you to set our trail tarps up in any of the styles shown above. We offer them in any of our tent canvasses, as well as our ultra-lightweight 8 oz. Dk. Brown Oilskin.
